

Thank you for your interest in playing and/or volunteering for the new Miracle League of Santa Rosa County! We appreciate your patience while we work through the details of our first miraculous baseball season. We value your time and willingness to participate. Please know that we are working on many details and intend to let you know as soon as they can all come together. Below is an update of where we are today.

Join us for Open House April 2, 2019, 5pm - 7pm

We will be hosting a Miracle League Open House at Tiger Point Community Center which will have two functions.

1. Players and families - Please stop by if you have any questions, need help with registration, or just want to come by and see the amazing field that is being built. In the meantime, we do have a [Q&A page](#) on our website that might answer your questions.
2. Volunteers - We highly recommend that volunteers have volunteer training in order to work with our friends with special needs. We will be offering a face-to-face volunteer training at 5:30- 6:00 on April 2. Volunteer training consists of:

- learning the rules of Miracle League baseball
- suggestions for how to interact with players who will have a great diversity of physical and intellectual disabilities.

Training will be concise. We will also have an online training tips after this event that will review the basics.

Please do not let the training requirement cause you anxiety. There are no tests. The volunteer requirements are that you give your time and your heart. If you can do that then you qualify. We simply want to give you the tools that you might need to take some of the anxiety you might have.

A cool view of our field at Tiger Point Community Center. Look at this gorgeous view! We will be playing ball in no time at all!

We are still accepting PLAYER registrations & payments.

[Visit the registration page](#) to sign up to play or to volunteer!
